Notice for Completion of Review:

Pursuant to 35 U.S.C. 184, the subject matter of this application may be filed in a foreign country for the purpose of filing a patent application without a license any time after the expiration of 6 months from filing date unless the application becomes the subject of a secrecy order.

35 USC 184 (b) (1) (A) provides that an applicant for a patent shall not be entitled to file an application in a foreign country for the purpose of filing a patent application without a license any time after the expiration of 6 months from the filing date unless the application becomes the subject of a secrecy order. This provision is intended to protect the national security of the United States by preventing the disclosure of information that is of a nature that it is reasonably foreseeable that it would be used in the development of a weapon of mass destruction or other weapon of war.
